PMB Eye Hospital

Employee Digital Handbook

Modernizing clinical policy distribution, staff compliance, and workplace culture

Ctrl Alt Elite

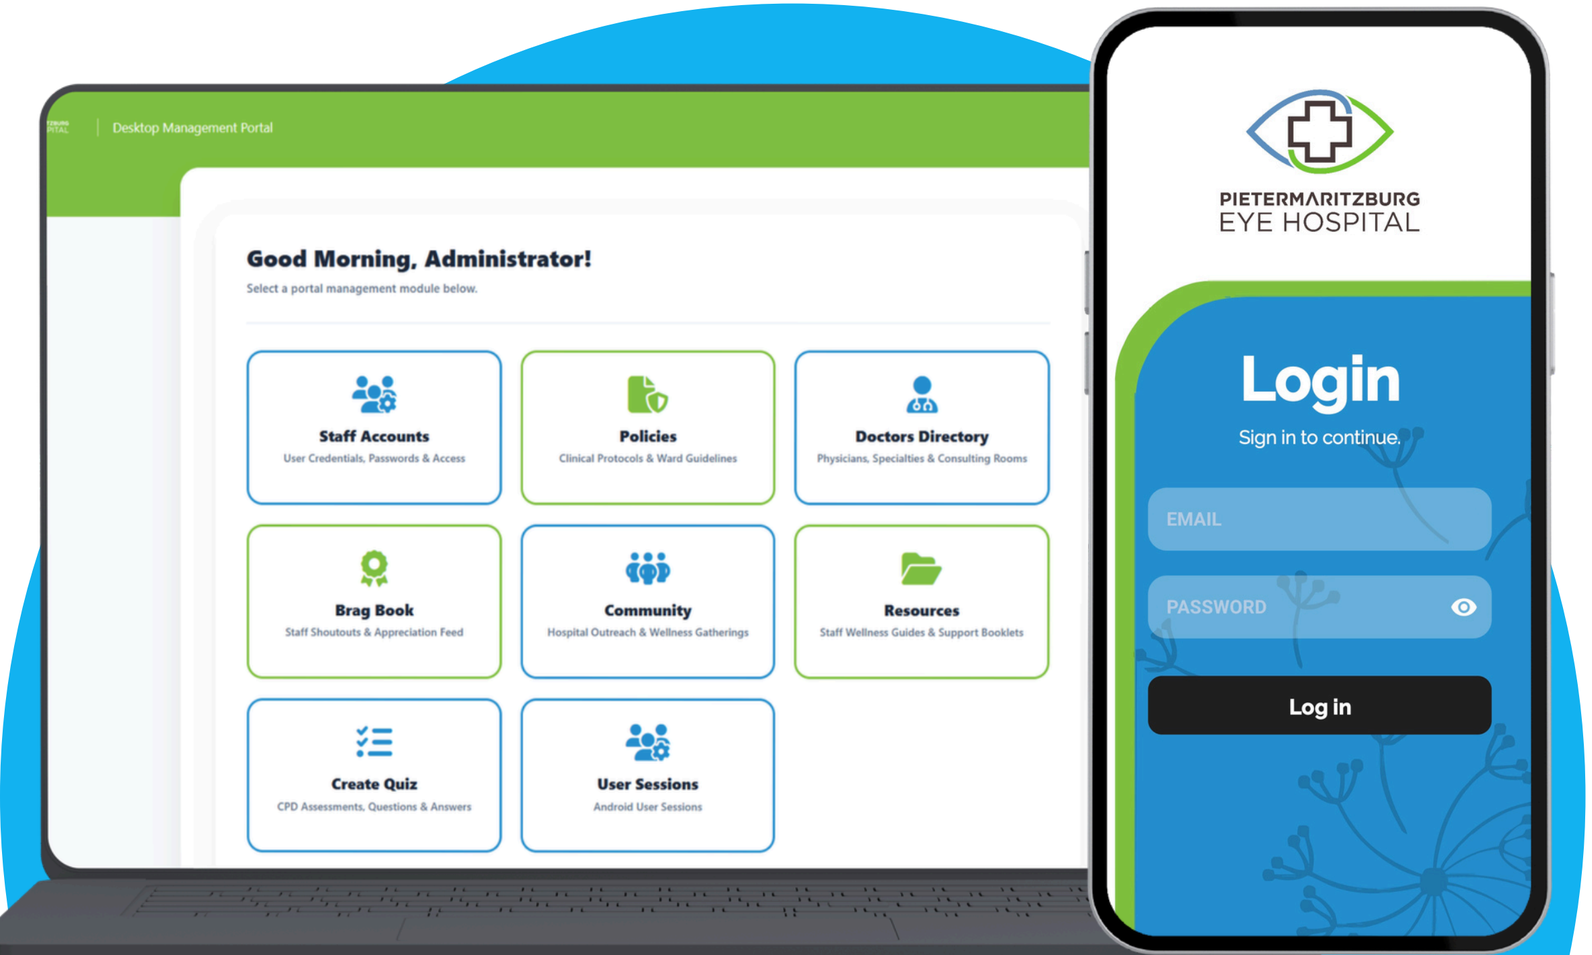

The Problem

01 **Physical Paper Binders**
Clinical policies and surgical protocols trapped in heavy lever-arch files

02 **Interrupted Patient Care**
Nurses must step away from patient bedsides to physical folders.

03 **Zero Compliance Visibility**
Management relies on paper registers with no audit trail for policy adoption.

The Solution

01 **For Frontline Nurses**
Android mobile app (lightweight ~11 - 12 MB)

02 **For Hospital Management**
Desktop web portal for policy governance and reporting.

03 **Unified Cloud Architecture**
Real-time synchronization of policies, assessments, and staff recognition.

04 **Single Source of Truth**
Immediate cloud updates eliminate outdated physical paperwork.

Direct Impact

01

Policy Hub

Searchable, category-based access to verified clinical PDFs in seconds.

02

CPD Knowledge Checks

Interactive assessments turning passive reading into verifiable compliance.

03

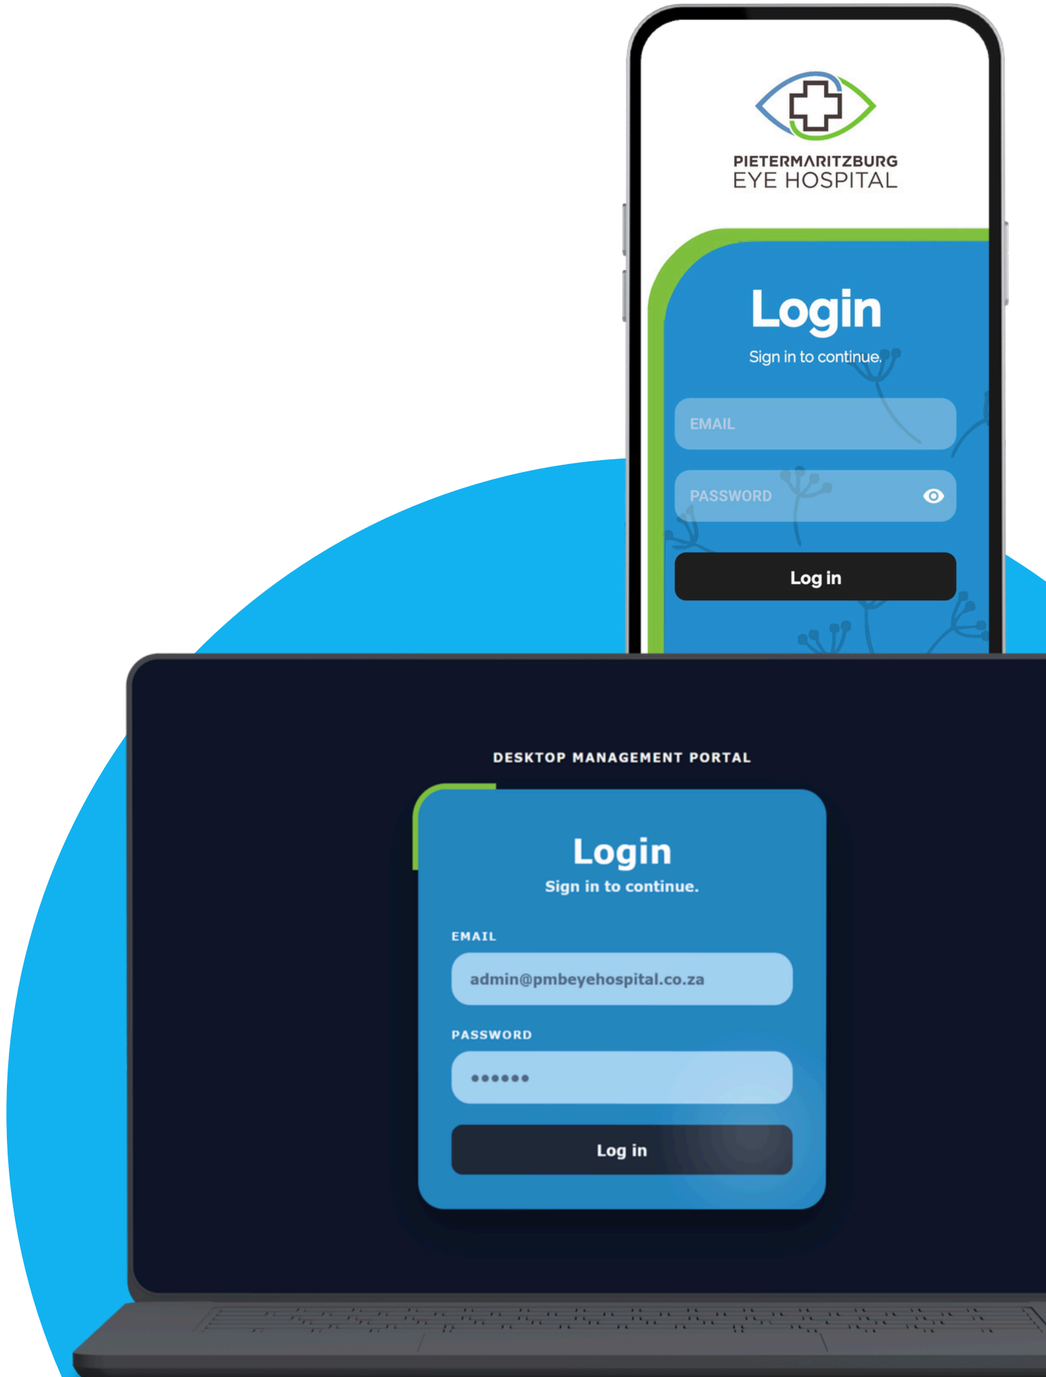

Staff Brag Book

Admin-moderated recognition feed boosting cross-shift morale.

04

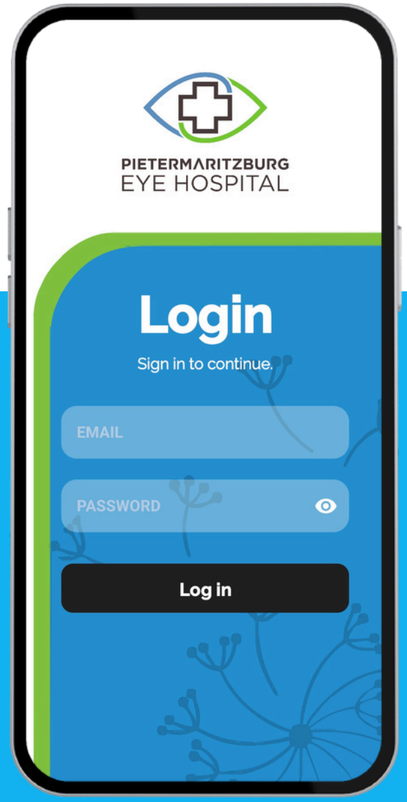

Direct Contacts & Resources

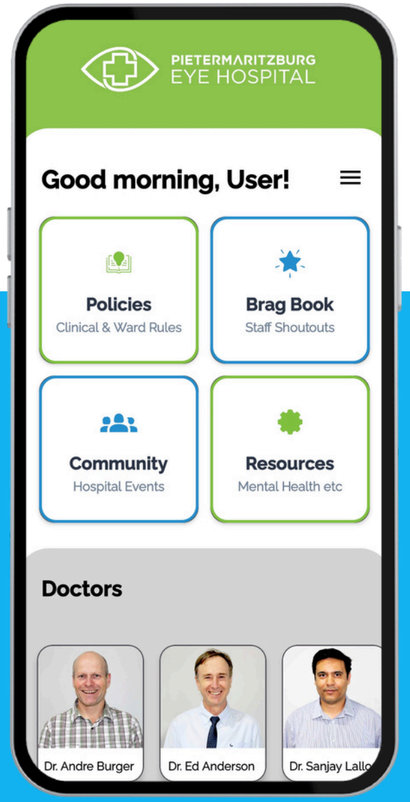

Quick contact details and linked policies for attending ophthalmic surgeons.

Healthcare Security & Intellectual Property Safegaurds

01 **Anti-Screenshot Protection**
Blocks screenshots and screen recordings.

02 **Clipboard Locking**
Automatic clipboard clearing which prevents copying policies.

03 **Zero Local Policy Storage**
Sensitive documents are streamed on demand and are never saved to personal storage.

04 **Role-Based Authorization & Session Limits**
Strict privilege separation between frontline staff and super administrators. with frontline staff being automatically logged out on Fridays.

Conclusion

01 **Successful Facility Rollout**
Completed 4 interactive onboarding workshops.

02 **Rapid Adoption**
Active floor nurses onboarded with zero disruption to daily tasks.

03 **Proven Stability**
Real-time policy lookups, seamless quiz submissions, and clean session tracking.
